

Business Planning at Hyper Speed in Power BI & Excel

Organizations today deal with a lot of uncertainty with shifting consumer behaviors, disrupted supply chains, and increasingly volatile global economic conditions. But one thing is certain: businesses that respond to changing conditions with agility and accuracy unlock invaluable opportunities, gain significant competitive advantage, and are overall more resilient to disruption.

Acterys is an end-to-end performance management solution that helps businesses match the pace of change. It gives a holistic platform for consolidation, reporting, planning, and analytics powered through Microsoft technologies, like Power BI, Excel, Azure and SQL.

Featuring a powerful planning engine, finance and operations teams can get any flavor of Extended Planning & Analytics (xP&A), whether it is financial planning, budgeting, cash flow forecasting, sales & operations planning, predictive analytics, and more. With Acterys, you collaborate effectively and react to dynamic changes rapidly, empowering you to take control of your now and future.

Acterys Key Benefits

Instant Connectivity to Any Source

- Bring data from all your inventory, ERP, CRM, HRM, and other systems from core business functions to create a single source of truth for integrated planning, budgeting, and forecasting.

Customized Data Models

- Automatically create holistic data models and easily extend them with powerful statistical and ML algorithms (e.g., regression, clustering, etc.) to enable data-driven forecasting.

Automated Workflows

- Create workflows to model your process for data consolidation and automate data refresh cycles, report distribution, and other routine tasks for real-time planning and analytics.

Security

- Trust the Microsoft technology-based security and get comprehensive governance user rights, and audit trails, so you can plan with confidence.

Reporting & Analysis at Speed

- Instantly view your business data populated in best practice reports, interactive dashboards, and data entry forms.

Profit from Next Level Power BI Planning

Planning-ready in minutes

Unlike other Power BI planning solutions, Acterys takes only 2 minutes to get started, thanks to its instant 1-click connectivity to any source and ability to automatically transform data into single-source-of-truth data models ready for reporting, planning & analytics

All-in-one Solution

Profit from a single unified platform to consolidate data, transform it into interactive reports, and manipulate it in real-time for planning and forecasting with market-leading SQL Server technologies (Azure & on-premise).

Cross-Functional Collaboration

Get input from core business functions (sales, finance, production, etc.) and collaborate at every step (report, visualize, plan, and simulate scenarios) to handle any xP&A scenario.

Average Time To Update 20K Cells

Acterys powerful writeback and planning engine capitalizes on its multi-update algorithm that supercharges processing times exponentially, especially effective when dealing with complex, large-scale enterprise scenarios.

Average Process Savings for Customers

Acterys' 1-click connectivity, powerful planning engine, cloud-compatible infrastructure, and ready-to-use reporting templates enable businesses to enjoy significant time and process savings, empowering them to plan for a profitable future using real-time insights.

Power BI Planning in the Cloud

- Available on BOTH the cloud (Azure) and on-prem (SQL Server)
- Requires no additional installations or maintenance and is available instantly for use.
- Adaptive capacity to instantly add extra processing power in real-time for more demanding planning cycles.
- Large-scale concurrent write-back handling via multi-threading
- Planning flexibility supporting top-down and bottom-up (absolute, relative, add, fill, etc.) approach
- Logic-driven hierarchies and constraint-satisfaction planning

What is Acterys?

Acterys is an Extended Planning & Analytics (xP&A) platform that integrates with Microsoft Azure, Power BI and Excel seamlessly. Acterys is the perfect integrated planning and analytics partner for businesses that provides an agile and secure solution to enhance efficiency and reporting flexibility for smarter, timely decision making.
